Business Manager – Technology Transfer

LifeArc is a medical research charity with a 25 year legacy of helping scientists and organisations turn their research into treatments and diagnostics for patients.

We are pioneering new ways to turn great science into greater patient impact at LifeArc. We do this by bringing together a network of partners to tackle specific diseases and by directly funding academic and early stage research.

Overview of role

We have an opportunity for a Business Manager to join the Technology Transfer team. This role can be based in London, Stevenage or Edinburgh.

The ideal candidate will have funding or administration experience and will have come from a scientific background.

As Business Manager you will be PhD or masters qualified and have an understanding of the laboratory environment. You will have moved in to an office based role ideally within funding and this may be your second step in to a position within science administration or funding. You may be in a Business Manager position at present.

Successful Business Manager’s will have a bigger picture outlook on science and must be able to think outside the box. Key attributes include:

- Building a rapport with key stakeholders
- Managing relationships
- Confidence in your delivery
- Approaching things with an open mind

Business Managers will be good problem solvers, able to see the bigger picture and be willing to think beyond what you already know.

We are looking for candidates who are interested in the people side of science and translating that to patients and businesses.

Salary

Your salary will be determined by qualifications and experience. In addition, LifeArc offers a defined contribution pension scheme, private health insurance, a flexible benefits scheme and 31 days paid holiday per year.

LifeArc is committed to the principles and practices of equal opportunities and to encouraging the establishment of a diverse workforce. It is our policy to employ individuals on the basis of their suitability for the work to be performed and their potential for development, regardless of age, sex, race, colour, nationality, ethnic or national origin, disability, marital status, pregnancy or maternity, sexual orientation, gender reassignment, religion or belief. This includes creating a culture that fully reflects our commitment to equal opportunities for all.

To apply please email your CV and covering letter explaining why you want to work for LifeArc to: adam.rudman@lifearc.org  Closing date: 4 October 2019
